

PRODUCT INFORMATION

BORPower® GBX-Gear

About the product

BORPower® GBX-Gear, the gear nano treatment, is recommended for application in the gear or transmission box of machines and mechanisms in the private, commercial or industrial sector.

BORPower® GBX-Gear is first in the world, because it is not like many lubricant additives which trigger chemical reactions, but the effect is purely PHYSICAL.

NOT suitable for use in vehicles with wet clutch, which have a common oil circuit.

Your advantages

- Facilitates gear changes
- Longer service life of mechanical components
- Extends maintenance intervals
- Prevents overheating
- Highly active anti-wear
- Reduces friction & wear
- Protects against rust & corrosion

Application

BORPower® GBX-Gear (250 ml) for transmission with an oil capacity of 0-6 liters. Do not forget to shake the bottle for at least 2 minutes and your vehicle before and after the fill at least 10 minutes to drive.

✓ manual transmission ✓ differential gear
