

# PRODUCT INFORMATION

BORPower® NanoLube Ultra Industry

## NANOLUBE ULTRA

### About the product

BORPower® NanoLube Ultra is a nano coating specially designed to be used in the industry sector.

### Your advantages

- Lower break
- Decreases exhaust emissions up to 15%
- Provides 2% to 15% energy saving (electricity, fuel)
- Provides up to 10% performance improvement
- Prevents overheating
- Reduces oil temperature (2-10° C)
- Less oil evaporation
- Longer life of machine parts
- Reduces the noise
- Power and energy savings
- More power at power generators
- Lower maintenance and labor costs
- Increases performance
- Protects against rust & corrosion
- More power for turbines and compressors

### Application

BORPower® NanoLube Ultra was developed specifically for the industrial sector. During use, you will receive detailed information by our team.
